

# L<sup>A</sup>T<sub>E</sub>X Lecture 2

Tareq

July 6, 2019

The argument to `\begin{thebibliography}` is used for setting the hanging indentation of the bibliography items. If you use numeric labels, then the argument should be a single digit (9 is commonly used) if there are less than ten items; two digits (commonly 99) if there are from 10 to 99 items and so on. For example, various rules of writing are explained in [1].
